

OPP ACRYLIC TRANSPARENT

Product Profile

OPP ACRYLIC TRANSPARENT is a biaxially oriented polypropylene film, with heat-sealable water based acrylic coating on at least one side. This film performs outstanding on packaging machines. The exceptionally strong seals and excellent hot tack on both surfaces of the film make the film suitable for all types of wrapping equipment. Applications include general packaging, direct overwrap and carton overwrap for cookies, chocolates, biscuits, etc.

Properties

CLARITY

Outstanding optical properties. Excellent transparency and sales-appeal. Increased gloss level for optimal product presentation.

SEALING

Low sealing threshold. Broad sealing range and exceptional seal strength. Heat-sealable on both sides with excellent hot tack.

PERMEABILITY/BARRIER

The excellent water vapour and aroma barrier guarantee flavour retention and odour protection.

ENVIRONMENT

Solvent free, aqueous acrylic, chlorine free coatings are used.

EASY PROCESSING

Excellent machining performance. Outstanding hot tack (on both surfaces). Suitable for all types of wrapping equipment and VFFS. Enhanced mechanical properties, puncture and impact resistance, outstanding machineability.

DIMENSIONAL STABILITY

Superior dimensional stability and stiffness.

PRINTABILITY

Printable on acrylic side by different printing techniques. Ideal support for water based ink printing. High surface tension remains stable over time.

FOOD CONTACT

OPP Acrylic complies with all food contact regulations and is non-toxic. Certificate is available on request.
