

# OPP PLAIN TRANSPARENT LAMINATION

## Product Profile

OPP Plain Transparent lamination film is a biaxially oriented polypropylene film, both sides treated, high slip and antistatic modified. Specially designed for paper and cardboard lamination applications in high speed converting processes, with excellent adhesion to waterbased inks and UV type lamination processes.

White lamination film available on special request.

## Properties

### CLARITY

Superior transparency and gloss provide an eye-catching product finish.

### SEALING

Non-heat sealable film for lamination purposes.

### PERMEABILITY/BARRIER

The OPP transparent lamination film has a high moisture barrier and a perfect resistance to oil, grease and chemicals.

### EASY PROCESSING

Good machineability even on high speed converting equipment.

### DIMENSIONAL STABILITY

Excellent dimensional stability.

### PRINTABILITY

The treated sides have an excellent ink and adhesive adhesion.

### LAMINATION

Good lamination with various substrates by adhesion or extrusion processes.
