

SILICONE RELEASE PAPER AL

Product Profile

SRP AL – Silicone Release Paper AL is a white, clay coated paper with a solvent-free silicone coating on one side, specifically designed for use as a protective release liner for envelopes with a self-adhesive top flap and for mailing packages with pressure sensitive adhesive.

Properties

SILICONE COATING

The silicone coating has been specifically designed for an optimal protection of the adhesive used. The silicones are solvent-free and therefore pollution through evaporation of solvents is nihil.

BASE PAPER

The quality of the clay coated base paper guarantees an excellent flatness and high paper stability.

RELEASE

To ensure an excellent release performance, the coating layer has been applied extremely evenly to the paper. The release value is controlled within narrow tolerances.

EASY PROCESSING

The optimal rigidity, good flatness and even coating guarantee easy processing.

PRINTABILITY

This paper is printable entirely to the customers' design or specification. Artwork, cliché or film and colour specifications are to be provided by the customer.

Our silicone release paper is your best choice for envelope release liners
